EtherFast 10/100 3-Port PrintServer (EPSX3)
EtherFast 10/100 1-Port PrintServer (PPSX1)

The EtherFast 10/100 PrintServer is the easiest and fastest way to add up to three printers to your network. Because it is equipped with up to three high-speed printer ports, the 10/100 PrintServer allows any PC on the network to print to any combination of laser, color, bubble jet, ink jet, and even dot matrix printers – including the latest generation of bi-directional and bi-tronic printers from HP, Lexmark, and others. The EtherFast 10/100 PrintServer is the ideal choice for both large corporations and small workgroups with printer sharing needs. Plus, it attaches directly to your network's cabling, so no dedicated print server PC is required. Each 3-Port or 1-Port EtherFast 10/100 PrintServer comes with a full suite of management utilities and support for multiple network protocols. Adding a PrintServer to your 10/100 LAN will save money and increase your network's efficiency.
